Київ, 13 липня 2021

IV МІЖНАРОДНА ВУГІЛЬНА КОНФЕРЕНЦІЯ
INTERNATIONAL COAL CONFERENCE

A Just Transition for All Methodology

LEX HUURDEMAN, WORLD BANK

Kyiv, 13 July 2021

The World Bank's three-by-three Methodology Dashboard for Energy Transitions in Coal Regions- a Just Transition for All

A great many policies, programs and institutional capacities are assessed for areas to be strengthened and gaps to be addressed through World Bank assistance.

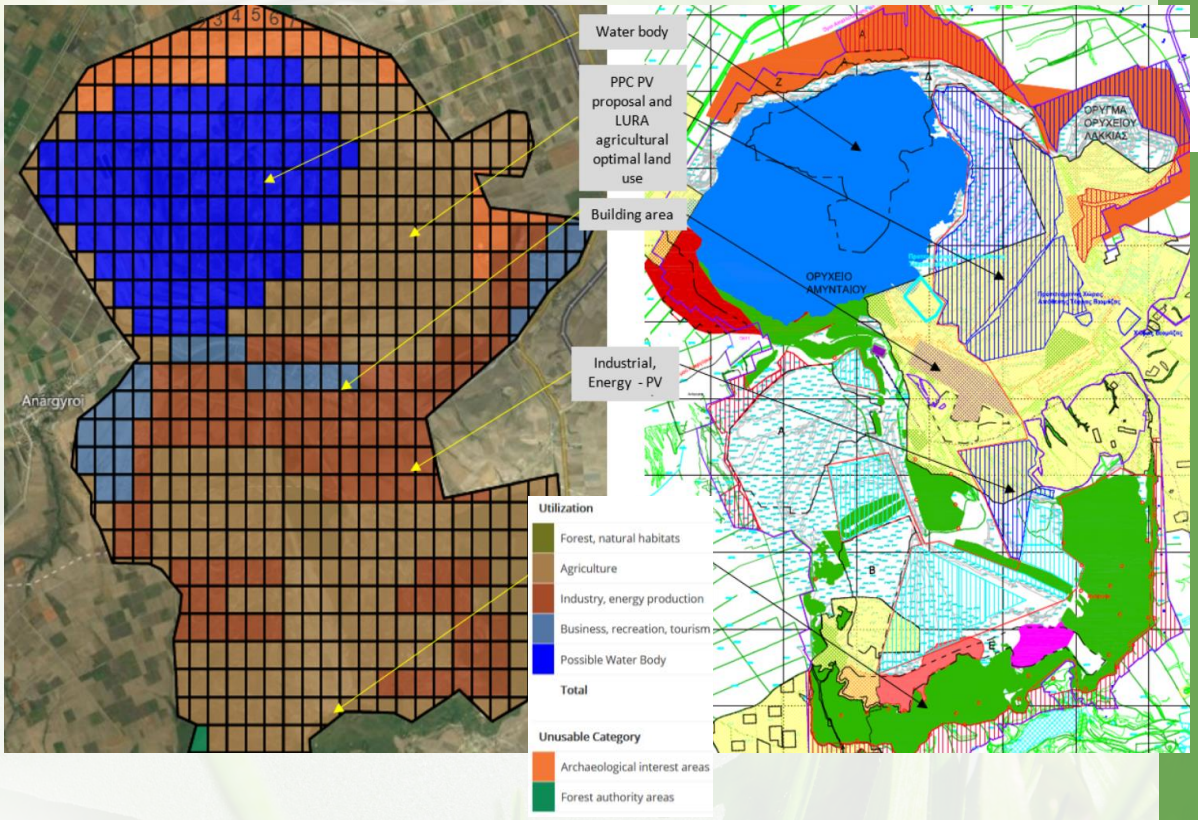

Extensive stakeholder engagement throughout

	Pillar 1 Institutional Governance	Pillar 2 People and Communities	Pillar 3 Environmental Reclamation and Re-purposing of Land and Assets
Phase 1: **Pre-Closure Planning** **10- 18 months**	• Institutional Governance and Policies • Stakeholder engagement • Spatial Planning • Coordination across stakeholders • Political Economy, Stakeholder mapping & engagement • Regional economic planning • Energy transition planning	• Worker's policies & rights • Assessment of short to medium term workforce transition • Strengthening Social Protection Programs and Service Delivery Capacity • Identification of Social Transition Projects	• Assessment of lands and assets for partial environmental remediation and repurposing • Roles & Responsibilities of State and Enterprise • Transfer of Surface / Sub-Surface data and assessment of legacy infrastructure • Fugitive Methane Abatement Plan
Phase 2: **Closure** **2+ years**	• Introduction of improved HSE and Technical Closure Standards • Special Purpose Entity SPE • Feasibility studies of transition projects	• Implementation of social protection programs for workers and communities • Roll out of Re-skilling and Re-Education / Active Labor Market Policies • Mobility assistance	• Physical closure / decommissioning to Technical Standards • Spatial planning / repurposing options • Transfer of lands and assets to government / SPE entities
Phase 3: **Regional Transition** **5-10 years**	• SPE coordination between government agencies and investors • Market soundings of potential investments	• Long term education for jobs of the future • SME business / skills development • Access to financing capital	• Environmental reclamation of prioritized lands and assets • Pre-permitting of lands and assets to incoming investors • Introduction of new private sector investors

Regional transition: Creating added value for post mining lands and assets

Land Repurposing Methodology (LRM):

1. Stocktaking and site inventory
2. Clarification of the legal, regulatory and permitting situation
3. Site investigation and monitoring
4. **Land classification methodology – LURA**
5. Land repurposing master plan (LRMP)

Дякуємо за увагу! / Thank you!
